

ISO 31000:2018 – Risk Management Professional Certification
Certified ISO 31000 Risk Management Professional (CIRMP)

Program Overview

The ISO 31000:2018 – Risk Management Professional Certification Program has been specially designed for Indian professionals across industries to build practical, business-oriented, and globally aligned risk management capabilities.

Unlike purely theoretical certification programs, this programme adopts a highly practical and contextual learning methodology. Each major guideline, principle, framework component, and process element of ISO 31000:2018 is explained through carefully selected anchor case studies of Indian corporate failures, governance breakdowns, operational disruptions, strategic missteps, cyber incidents, compliance failures, financial frauds, and reputational crises that participants can immediately relate to. This approach ensures stronger conceptual understanding, deeper engagement, and practical applicability in real-world business environments.

The programme also incorporates:

- Structured group exercises
- Individual analytical assignments
- Interactive discussions
- Risk workshops
- Scenario-based simulations
- Practical risk assessment activities

These elements are intentionally embedded into the learning design to promote:

- interaction and peer learning,
- cross-functional thinking,
- networking among professionals,
- collaborative problem-solving,
- and practical application of ISO 31000 concepts.

Participants will not only understand the framework conceptually but also learn how to operationalize risk management within their own organizations.

The certification additionally introduces participants to globally recognized risk assessment methodologies under ISO/IEC 31010:2019, enabling them to apply structured tools for risk identification, analysis, evaluation, and treatment across operational, strategic, financial, technology, compliance, cyber, and reputational risk domains.

Programme Details

Programme	ISO 31000:2018 – Risk Management Professional Certification
Certification Title	Certified ISO 31000 Risk Management Professional (CIRMP)
Standards Covered	ISO 31000:2018 (Principles, Framework & Process) along with ISO/IEC 31010:2019 Risk Assessment Tools
Duration	3 Days
Dates	Wednesday 22 July to Friday 24 July, 2026
Timing	9.00 am to 5.30 pm
Location	Mumbai
Pedagogy	Expert-led sessions, Indian corporate case studies, structured group exercises, practical workshops, simulations, and certification examination
Assessment	Written examination comprising MCQs, scenario-based questions, and short case analysis questions

Who Should Attend

This programme is ideal for professionals across banking, financial services, fintech, NBFCs, manufacturing, hospitality, retail, technology, consulting, and other sectors, including:

- Branch Managers & Regional Heads
- Risk Management Professionals
- Credit & Underwriting Teams
- Compliance & Internal Audit Professionals
- Operations & Process Excellence Teams
- Strategy & Transformation Teams
- Digital Banking & Technology Teams
- Cybersecurity & Information Security Teams
- Business Heads & Functional Leaders
- High-potential managers being groomed for leadership roles
- Professionals aspiring to transition into Risk Management roles

Key Learning Outcomes

By the end of the programme, participants will be able to:

- Understand and speak the ISO 31000 risk management language fluently
- Interpret and apply ISO 31000:2018 principles in practical business environments
- Design and embed a risk management framework aligned with organizational objectives
- Integrate risk management into governance, decision-making, strategy, and operations

- Conduct structured risk identification, analysis, evaluation, and treatment
- Build meaningful risk registers and practical treatment plans
- Apply ISO/IEC 31010 risk assessment techniques effectively
- Strengthen risk-informed decision-making at branch, departmental, and enterprise levels
- Improve organizational resilience and preparedness for disruptions and crises
- Develop a practical understanding of risk governance through Indian corporate case studies

Programme Highlights

Practical Indian Corporate Case Study Approach

Every major concept within ISO 31000:2018 is connected to real-life Indian business events and organizational failures to ensure:

- practical relatability,
- stronger retention,
- improved analytical thinking
- real-world application.

Illustrative themes may include:

- governance failures,
- operational breakdowns,
- cyber incidents,
- frauds,
- reputational crises,
- strategic risk failures,
- digital transformation risks
- business continuity events.

Interactive Learning Design

The programme has been deliberately designed to maximize engagement and collaborative learning through:

- group discussions,
- peer interaction,
- risk workshops,
- simulations,
- case analysis,
- team exercises,
- and individual problem-solving activities.

This creates a highly engaging and networking-oriented learning environment for participants from diverse industries and backgrounds.

Programme Schedule

DAY 1

Foundations & Principles

Anchor case: PNB — Nirav Modi

TIME	SESSION	TYPE
08:30 – 09:00	Registration & welcome coffee	Break
09:00 – 09:30	Opening — three collapses, why we're here	Open
09:30 – 10:45	Clauses 3 & 4 — risk language, definitions, framework intro	Concept
10:45 – 11:00	Tea	Break
11:00 – 12:15	PNB primer — LoU mechanics, the eight-year fraud	Case
12:15 – 13:15	Lunch	Break
13:15 – 14:30	The 8 Principles — deep dive	Concept
14:30 – 15:30	PNB diagnosis — which principles failed, in what order	Case
15:30 – 15:45	Tea	Break
15:45 – 16:30	Behavioural & cultural risk	Concept
16:30 – 17:30	Boardroom simulation — PNB CRO interrogation	Application
17:30	Close · pre-read for Day 2	

DAY 2

Framework & Process

Anchor case: Cosmos Cooperative Bank

TIME	SESSION	TYPE
09:00 – 09:15	Recap quiz & coffee	Break
09:15 – 10:15	Clause 5 — framework architecture (leadership, integration, design)	Concept
10:15 – 10:30	Tea	Break
10:30 – 11:30	Cosmos primer — Aug 2018 cyber heist anatomy	Case
11:30 – 12:45	Three Lines of Defence + Clauses 6.1 – 6.2	Concept
12:45 – 13:45	Lunch	Break
13:45 – 14:45	Cosmos diagnosis — where the Three Lines broke	Case

TIME	SESSION	TYPE
14:45 – 16:00	Clauses 6.3 – 6.5 — identification, analysis, evaluation	<i>Concept</i>
16:00 – 16:15	Tea	<i>Break</i>
16:15 – 17:30	Boardroom simulation — Cosmos CISO post-mortem	<i>Application</i>
17:30	Close · IL&FS pre-read	

DAY 3

Tools, Application & Exam

Anchor case: IL&FS

TIME	SESSION	TYPE
09:00 – 09:15	Recap & coffee	<i>Break</i>
09:15 – 10:00	Clause 6.6 + KRIs & dashboards	<i>Concept</i>
10:00 – 10:15	Tea	<i>Break</i>
10:15 – 11:15	IL&FS primer — credit & liquidity collapse	<i>Case</i>
11:15 – 12:15	ISO 31010 toolkit + Clause 6.7	<i>Concept</i>
12:15 – 13:15	Lunch	<i>Break</i>
13:15 – 14:15	IL&FS diagnosis — which tools would have caught it	<i>Case</i>
14:15 – 15:15	Risk culture + crisis response playbook	<i>Concept</i>
15:15 – 15:30	Tea	<i>Break</i>
15:30 – 16:15	Boardroom simulation — IL&FS board pre-collapse	<i>Application</i>
16:15 – 17:15	Certification exam — 37 questions, 60 minutes	<i>Exam</i>
17:15 – 17:30	Close	

Notes

- All times IST. Tea breaks are 15 minutes; lunch is 60 minutes.
- Sessions tagged Concept (C) are theory; Case (CA) are anchor-case work; Application (A) are live boardroom simulations.

Programme Inclusions

The programme fee includes:

- Breakfast, lunch, and refreshments during the programme
- Training venue and conference facilities
- Comprehensive course material
- Certification examination
- Certificate of Achievement

Programme Fee

Standard Fee: INR 75,000 + GST per participant

Early Bird Discounted Fee: INR 67,500 + GST per participant (valid till 22nd June 2026)

The above fee is fully inclusive of all programme components listed above.

Payment Terms

- Full payment must be made in advance prior to the commencement of the programme.
- Participant nominations will only be confirmed upon receipt of complete payment.

Certification Note

The Certified ISO 31000 Risk Management Professional (CIRMP) certification validates participants' knowledge and understanding of ISO 31000:2018 in alignment with globally accepted risk management practices.

This certification is offered at the Foundations Level, with Advanced and Lead-level pathways available for further professional progression.

The certification is issued by Vinco Consultancy and Advisory Services, Gurugram, Haryana (<https://www.vincoconsult.com>)
