He has delivered more than 100 business analysis programs over the past 6 years, including 10 different business analysis courses spanning all the 6 IIBA® *BABOK® Guide* knowledge areas and **trained more than 1500 professionals on business analysis. He has also delivered more than 100 programs on different project management topics over the past 12 years. He has delivered more than 30 CBAP® certification boot camps so far; more than any other instructor in India.**

He has managed multiple types of IT projects like full development life-cycle projects, testing projects, defect prevention projects and maintenance & production support projects in the onsite – offshore model for global customers.

He possesses strong experience in managing project portfolios, programs and multiple concurrent projects. He was responsible for setting up and heading the PfMO (Portfolio Management Office) at a global IT services organization. He has also managed organization-wide cross-functional multi-location programs for both BPO as well as IT organizations.

Over these years, he has assumed roles in the capacity of Director & Global Head – Enterprise Risk Management, Deputy General Manager, Head – Portfolio Office, Delivery Manager, Project Manager and National Technology Head. In his last role, he was the Global Director and Chief Information Security Officer with a global IT services company.

He has a strong corporate training background and has trained hundreds of professionals in a large number of workshops at organizations like Ernst & Young, Barclays Bank, Societé Générale, HSBC, RBS (Royal Bank of Scotland), JP Morgan, Amdocs, Wipro Infotech, Wipro Technologies, Hewlett Packard (HP India), Deloitte India, Cognizant Technologies, Oracle, Siemens PLM, Convergys, Bank of America Continuum, Fidelity Investments, Dell India, NIIT Technologies, Nucleus Software, Thomson-Reuters, Alcatel-Lucent, Reliance Infrastructure, Cairn Energy, Robert Bosch, Bombardier etc.
